Note: Any arrangements made by you with any of the catering companies listed above or otherwise are wholly between you and the organisation, and will not involve Liverpool City Council. However, Liverpool Town Hall / St George's Hall does require any catering company who provides services on the premises to pay a fee to Liverpool City Council. This fee is used to cover the overheads and administrative costs incurred by City Assets in providing the venue and facilities.

Liverpool City Council requires 20% catering commission from the overall net cost.

Note: If you wish to use another catering company which is not listed above, Liverpool Town Hall / St George's Hall would need to agree to the use of that caterer prior to any arrangements being finalised between you and the supplier.
